

Delta Coal Fact Sheet

Chain Valley Colliery and Mannering Colliery

Great Southern Energy Pty Ltd (trading as Delta Coal) is owned Seven Global Investments Pty Ltd. Delta Coal operates Chain Valley Colliery and Mannering Colliery.

Employees and supporting businesses

Delta Coal employs over 250 workers and contractors across both mine sites. Delta Coal also supports local businesses, local communities and local council through direct and indirect spending and contributions.

Location

Chain Valley Colliery is located on the southern end of Lake Macquarie approximately 60 kilometres south of Newcastle. Mannering Colliery is approximately 1.1km south of the Chain Valley Colliery.

OPERATIONAL HISTORY

Environmental Management

- Our Environmental Management System (EMS) provides a framework for the systematic management of environmental issues.
- The EMS covers design, development, production, maintenance and rehabilitation of the operation and its infrastructure.
- We conduct monitoring of meteorological conditions, air quality, water quality, noise levels, subsidence effects, flora and fauna and rehabilitation areas to evaluate the effectiveness of our environmental management processes
- The EMS framework provides standards, procedures, objectives and targets, to help maintain and continually improve on our environmental performance

Community

Delta Coal is committed to ongoing open and honest communication with the local community and other stakeholders. We actively seek to engage and consult the community to provide information relating to the environmental, social and operational performance of the mine and enable the community to provide feedback.

Our community program includes opportunities for not-for-profit community organisations to seek donations, sponsorship and in-kind assistance for a range of environmental, community development and educational activities. We are proud to be a member of our local community.

Achievements

- Chain Valley Colliery and Mannering mine workers and staff successfully navigated through significantly difficult geological structures and geotechnical conditions in 2018
- Transitioned in April 2019 to Delta Coal ownership and alliance with Delta Electricity to retain local, domestic coal supply for Vales Point Power station and NSW's household energy requirements
- Significant improvements have been achieved in productivity through planning and investment in Delta Coal's people and engineering assets
